Please note: Original church records are held Kent's central archive in Maidstone called the Kent Archive and Library Centre. The original writing is very difficult to read especially for the older records. Some of the oldest records, from the 1600s, have not been transcribed.

The format and details recorded at different periods vary, hence the variety of what's included for each entry above.

Those records that were transcribed may contain original mistakes from the manuscript, plus further errors may have been introduced subsequently during the transcription.

Some records are duplicated above as Bob produced some lists of 'Brides' and 'Grooms' for only limited periods. These are included because different tables seemed to have extra details about the witnesses, or occupations, for example.

Please let me know if there are obvious errors or omissions.
